Letter From The President

The September meeting proved to be a huge success in terms of fellowship, food, and the presentation by Michael Flynn. Michael, developer and owner of 14 Fathoms, presented his Microsoft-based technology solution for Invitation to Bid and Scopes of Work documentation integrated into one package.

I want to mention a few things happening in the background that you may not be aware of:

Our chapter 7, Chicago website has been updated in regards to link upgrades, header, and some miscellaneous font upgrades.

We have also added a section for corporate sponsors and will be updating this section as we bring in more sponsors. Let us know if you find something that is not up to par on the site.
